Introduction

Junior fullstack developer with a bachelor's degree in computer science seeking a junior/graduate software developer position. Skilled in Next.js, React, PostgreSQL and API Development. Adaptable and committed to staying up to date with the latest trends. Excited to contribute and work alongside a team of developers to provide a seamless software experience.

Education

JULY 2025

University of Salford | Bachelor of Computer Science (Hons) | 2:2

Relevant Modules:

- Advanced Web Development.
- Client Server Systems.
- Web Development HCI.

Dissertation Topic:

- Progressive Web Application | Installable web application using React and Symfony.

Experience

OCT 2025 – PRESENT

AI Dataset Trainer | WeBuyBricks | Rawtenstall, Lancashire

- Worked with Linux-based systems to support AI model training workflows.
- Maintained high accuracy and consistency across large datasets.
- Collaborated with a technical team to meet daily annotation and quality targets.

JUNE 2025

Website for business | Freelance | Remote

- Built and deployed a Next.js marketing site for a business, achieving 700+ visitors and 9000+ impressions.
- Integrated Sanity CMS for dynamic content management.
- Tailwind CSS for user interface styling and framer motion for a modern, responsive UI.
- Deployed via Netlify, implementation of Incremental Static Regeneration for performance optimisation.

MAY 2025

E-Commerce Site | Personal Projects

- Next.js E-Commerce site using modern features such as server-side rendering (SSR) for performance.
- PostgreSQL database with Prisma ORM.
- Secure authentication using Auth.js (NextAuth) with JWT.
- UI built with ShadCN and Tailwind CSS.

MARCH 2025

Full stack Progressive Web App | Personal Project | University of Salford

- Built a fullstack Progressive Web App using Symfony (backend) and React (Vite) frontend.
- Designed and implemented REST API with JWT authentication for secure data access.
- React Query used for caching and efficient data fetching.
- Delivered a multi-platform installable web app as part of final dissertation.

Skills

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS, ShadCN, Framer Motion, HTML

Backend: Node.js, Symfony, PHP, REST APIs, Prisma ORM, Doctrine ORM

Tools & DevOps: Git, Docker, Composer, Netlify, Vercel, Heroku

Databases: PostgreSQL, Sanity CMS
